

Tearing down silos with **DRNet[®]/Unified**

From Replication to Integration, Transformation and Distribution;
NTI is putting data first! Your data!

Richard K Buckle

Marketing Consultant to NTI

Connected Community

For 37 years, NTI has provided direct sales and support teams - complemented with support of major global partners, tools and utilities together with a growing ecosystem of partners and consultants – and has delivered lowest TCO for all your data needs.

Entering the age of insight

NonStop creates data but before enterprise insight is realized, it needs to be shared.

“Enterprises need to be more data-first in all that they do ...

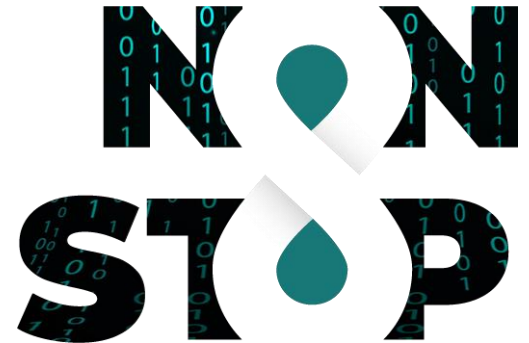

But data is a wasted asset if you cannot get insight from it.”

March 22, 2022 Antonio Neri introduces new capabilities for GreenLake

NTI's foundation

NTI's core competency centres on Change Data Capture (CDC)

DRNet[®] is as much a commitment to supporting business continuity as it is ensuring the movement of data created on NonStop to where it better enables business insights across the enterprise, edge to cloud.

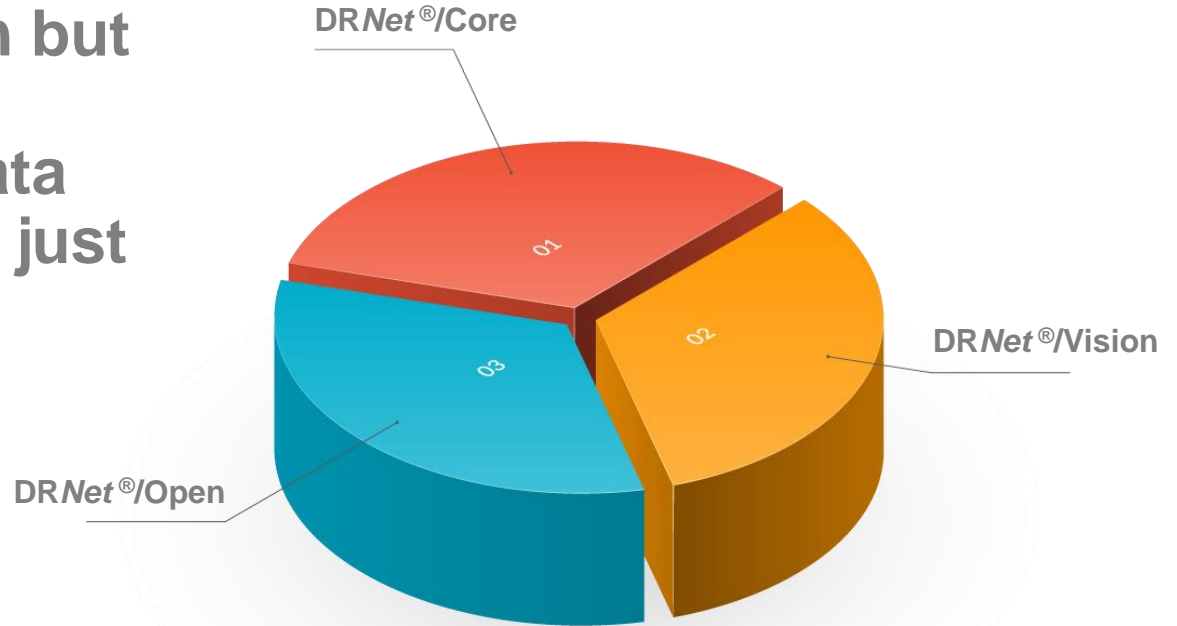

NTI's Vision

Ensuring greater participation of NonStop in today's world of hybrid IT; broadening our horizon by adding value for our customers as we complement the offerings of others

Turning message into product

Not just a slogan but
an opportunity;
replicate your data
everywhere with just
one product

Why product packages?

Combining the best in industry-wide CDC with support for industry standard JDBC, JSON and more...

NonStop Community deserves alternatives; should consider NTI as having strongest value proposition

NonStop Users, not Vendors, determine 'business continuity strategy;' a customer-obsessed approach leads to a product that matters to customers

- DRNet® /Core
- DRNet® /Unified for HPE Customers
- DRNet® /Vision
- DRNet® /Unified for Business Integration
- DRNet® /Open
- DRNet® /FileSync
- DRNet® /XPbr
- DRNet® /XPcr

It's all about the Core!

It is through the Core that NTI has the platform in support of further **products and packages**

One product but many use cases.

This foundation is based on industry standards:

- Change Data Capture (CDC)
- JDBC
- JSON

DRNet®/Unified for HPE Customers

- three features in a single product package

Bringing you DRNet®/Core for traditional data replication to other NonStop systems, Traditional and Virtual combined with the added value DRNet®/Vision and DRNet®/Open provide for **data integration, transformation, and distribution:**

To any JDBC Databases

- Oracle, MS SQL Server
- My SQL
- IBM DB2
- Sybase and more...

To other Message Queues, BI, DW Consumers leveraging JSON

- Kafka
- Splunk>
- ELK
- Hadoop and more...

With no additional license fees when licensed for DRNet®/Core

DRNet[®]/Unified for Business Integration - two features in a single product package

Introducing a combination of DRNet[®]/Vision and DRNet[®]/Open as a stand-alone package that will readily **coexist with existing Business Continuity products** to bring to your enterprise data integration, transformation, and distribution:

To any JDBC Databases

- Oracle, MS SQL Server
- My SQL
- IBM DB2
- Sybase and more...

To other Message Queues, BI, DW Consumers leveraging JSON

- Kafka
- Splunk>
- ELK
- Hadoop and more...

**With no requirements
to activate
DRNet[®]/Core**

DRNet[®]/Vision does Kafka – Today!

“Solutions that bring value to a NonStop customer that otherwise cannot be filled (by solutions we already offer) then we would be foolish not to entertain them.”

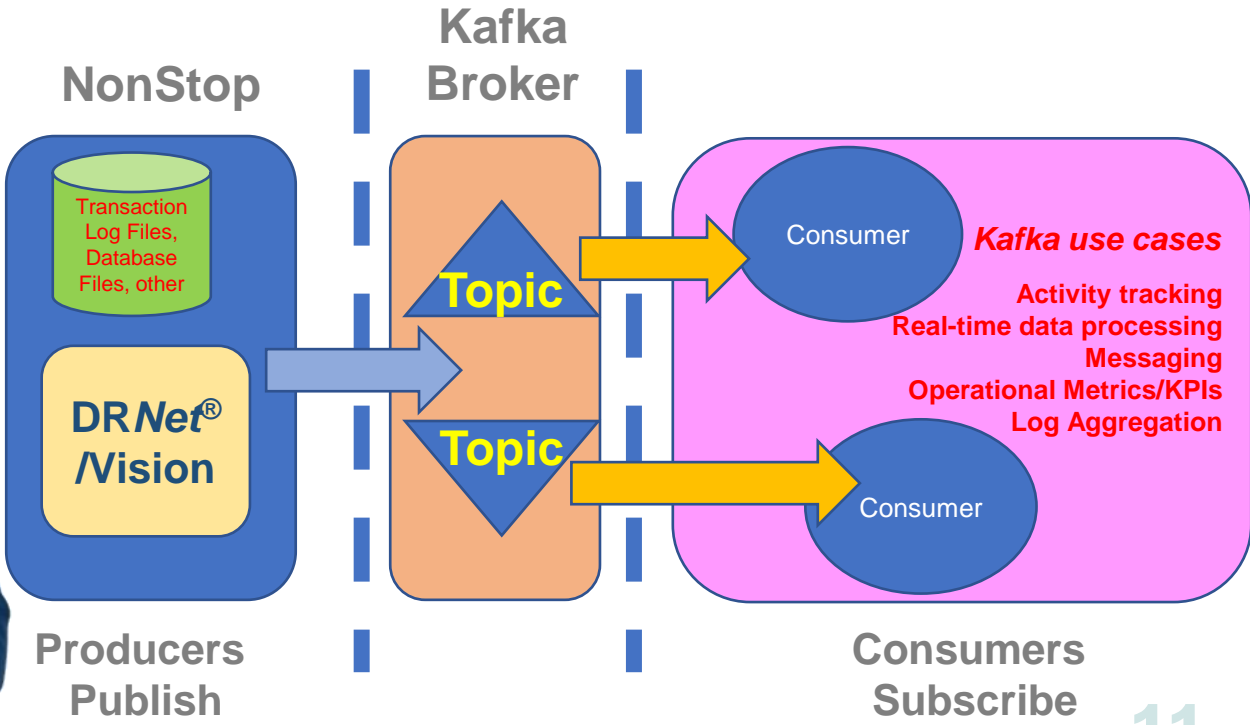

HPE NonStop source May4, 2022

Working with it's
large installed
base NTI is
delivering
solutions
today with
DRNet[®]/Vision

Entering the world of Kafka

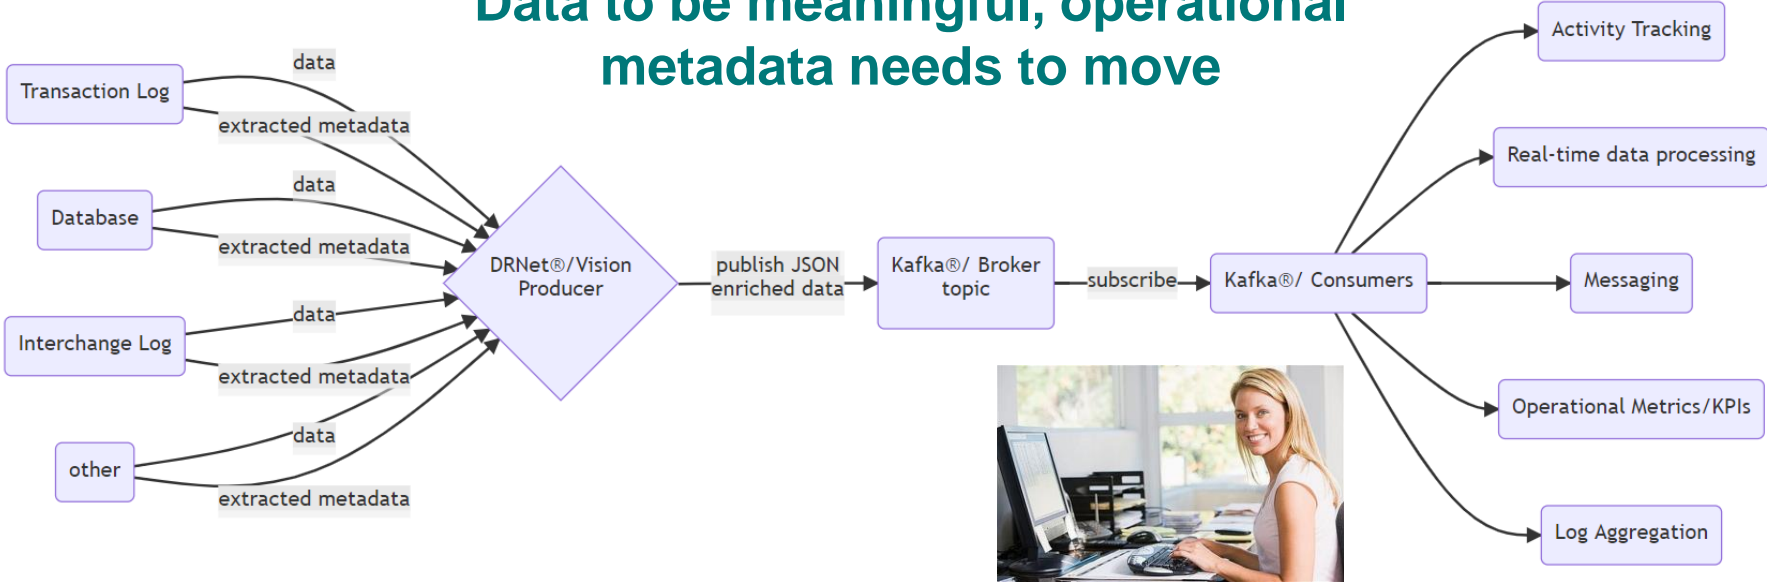

DRNet® /Vision - Publish and Subscribe

Entering the world of Kafka

DRNet® /Vision - Publish and Subscribe

Data to be meaningful, operational metadata needs to move

Kafka, a time series database, supports visualization with Grafana

Successfully moving their data

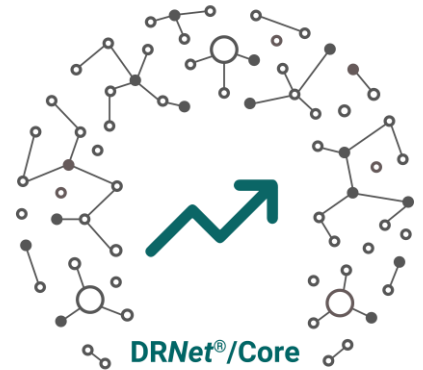

A global presence
Deploying Core, Vision and Open

Delivers business continuity solutions to the HPE NonStop community

Implemented as a NonStop product - developed and deployed on L-Series and J-Series

Full support for NonStop Business Continuity requiring Active-Active Data Replication or Hot Backup with Recovery

Enhanced to better integrate with modern databases and processes

DRNet[®]/Vision utilizes self-describing JSON open standard file and data interchange formats that are industry standard

DRNet[®]/Vision fully supports the transformation of data in flight as part of enhancing business opportunities

DRNet[®]/Vision provides data distribution and integration inclusive of NonStop data, Measure data and Metadata

Replicate data to open platforms including Windows[®], Unix[®] and Linux[®]

Real Time heterogeneous enterprise Data Replication solution supporting distribution of mission critical data from NonStop source to any OPEN JDBC target

Supporting a single NonStop instance servicing multiple targets

Target database collectors with option to replicate select data from open platforms back to NonStop

Automatically monitors, replicates and synchronizes application environments and non-database files

Software automatically monitors, replicates and synchronizes application environments and non-database files (edit, objects, source, TACL, blobs, OSS) across HPE NonStop servers

TANDsoft relationship spans approximately two decades

Introducing DRNet®/XPbr addition of Express Backup/Restore featuring FS Backup and Restore

Backup times that formerly may have taken hours can be reduced to minutes with FS Backup and Restore

Rather than archive whole files to disk, tape or virtual tape, FS Backup detects file data-block modifications and archives only the changed blocks

Introducing DRNet[®]/XPcr addition of Express Compare/Repair featuring FS Compare and Repair

Block Hash Compare technology is what makes this solution blazingly fast. When discrepancies are detected, FS Compare and Repair drills down to display the rows, records, columns and fields that are out-of-sync and offers the user the option to repair the target file

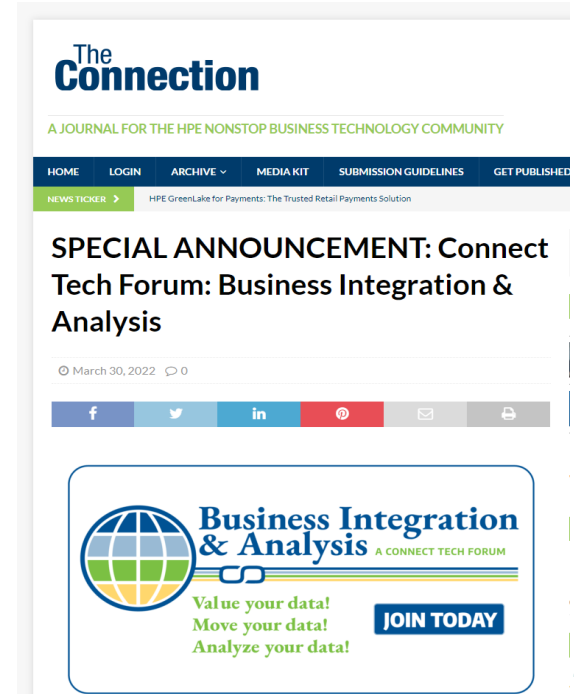

And now: A new Connect Tech Forum

Hard Launch HPE Discover 2022

NonStop customers have witnessed the arrival of many tools and utilities with the sole purpose of better integration of NonStop with its peers.

A venue where information can be readily exchanged and where the availability of solutions addressing integration and analysis can be better communicated.

The screenshot displays the homepage of 'The Connection' website. At the top, the logo 'The Connection' is prominently featured, with the tagline 'A JOURNAL FOR THE HPE NONSTOP BUSINESS TECHNOLOGY COMMUNITY' below it. A navigation bar includes links for HOME, LOGIN, ARCHIVE, MEDIA KIT, SUBMISSION GUIDELINES, and GET PUBLISHED. A news ticker shows 'HPE GreenLake for Payments: The Trusted Retail Payments Solution'. The main content area features a 'SPECIAL ANNOUNCEMENT: Connect Tech Forum: Business Integration & Analysis' dated March 30, 2022. Below the announcement are social media sharing icons for Facebook, Twitter, LinkedIn, and Instagram. A large promotional banner for the 'Business Integration & Analysis' forum is shown, featuring a globe icon and the text 'Value your data! Move your data! Analyze your data!' with a 'JOIN TODAY' button.

Business Integration and Analysis

“Data integration requires not only great technology it needs communities such as available with NonStop where amazing talents can join forces to overcome the roadblocks of digital transformation, so what better place to start than a Connect hosted forum, dedicated to help you get the best value of your NonStop data and more!”

HPE NonStop Product Manager, Roland Lemoine.

“The largely unanswered question facing most enterprises is how to extract maximum value from an abundance of data? This BI&A forum is intended to promote ‘Data Value Thinking’ for data born on NonStop. Our sole intent is to impart perspective and to augment the critical thinking of participants.”

NTI Global Director Worldwide Sales, Tim Dunne.
